# TRANSFORMATIONS

3<sup>ème</sup>

## Entraînement

Sur chaque figure, terminer le translaté commencé puis représenter la translation par une flèche.

The image contains three panels of geometric figures on a triangular grid, followed by a large grid for drawing.

- Panel 1:** A hexagon on the left and a triangle on the right, partially overlapping the hexagon's right side.
- Panel 2:** Two overlapping hexagons, one shifted upwards and to the right relative to the other.
- Panel 3:** A hexagon on the left and a triangle on the right, partially overlapping the hexagon's right side.

Below these panels is a large grid with a shaded triangle on the left and a shaded house-like shape on the right. The house shape is composed of a hexagon with a triangle on top, and another triangle on the right side.
